Introduction:

The Reserve Bank of India (RBI) directed Boards of Non-Banking Finance Companies-Account Aggregator ("NBFC-AA") to put out suitable internal norms and processes in calculating pricing for their services and other fees in its Master Direction DNBR.PD.009/03.10.119/2016-17 dated Sep 02, 2016.

Considering the RBI Guidelines, the board of Dashboard Account Aggregation Services Private Ltd (the "Company") has established the following internal guiding principles.

Objective:

Our price strategy seeks to provide clear, fair, and flexible pricing for our Account Aggregator services while responding to the different demands and sizes of the ecosystem's Financial Institutions. Our goal is to develop mutually beneficial interactions that contribute to the financial ecosystem's growth and prosperity.

Policy:

Service Tiers	Units	Additional Comments	Price per Unit
Public Sector Banks	Per Data Call	Pricing depends on reverse bidding as well	Rs. 0.50 to Rs 10.00
Private Sector Banks & Large NBFCs	Per Data Call		Rs. 2.00 to Rs 10.00
NBFCs & Insurance	Per Data Call		Rs. 0.75 to Rs 10.00
PFM Use Cases	Per user per month	No. of data calls per month will be determined appropriately by the senior management.	Rs. 0.50 to Rs 10.00

Exceptions:

While our pricing policy strives to offer a fair and consistent approach to pricing for our Account Aggregator services, there may be certain exceptions based on unique circumstances. Such exceptions can be evaluated and approved by the CEO and COO.
